

REMARKS

The applicants respectfully disagree with the Examiner's rejections set forth in the present office action. However, desiring to expedite the issuance of a patent for the present invention and in view of the Examiner's indications of amendments that would confer allowance, the applicants have amended the claims substantially in accordance with the Examiner's suggestions. Rejected claim 26 has been made dependent upon allowed claim 20, claim 35 has been rewritten as an independent claim, and claims 11, 15 and 17-18 have been amended to clarify their meaning, thereby addressing their corresponding objections and rejections.

No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record and in condition for allowance. Therefore, allowance of this case is earnestly solicited.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. **502117 -- Motorola, Inc.**

Respectfully submitted,
X. Zhuang et al.
